## From the Staff

**A**RKOTOS has opened the first months of 2018 with the publication of the long-anticipated translation of Joakim Andersen's *Rising from the Ruins*, an incomparable tour of the major movements of the true Right and Kerry Bolton's *Yockey: A Fascist Odyssey*, the definitive biography of the visionary American thinker Francis Parker Yockey. Joining these titles are Alexander Dugin's *Ethnos and Society*, Tito Perdue's *The Bent Pyramid*, and Alain de Benoist's *Runes and the Origins of Writing*.

We have also issued the first two titles from our Julius Evola crowd-funding campaign, *The Bow and the Club* and *Recognitions*, in which the great Traditionalist distills the study and thought of a lifetime. Soon to follow will be *The Myth of the Blood* and *The Mask and Face of Contemporary Spiritualism*. Also watch for the imminent publication of *A Fair Hearing*, a unique defence of the Alt-Right, the most controversial movement in contemporary American politics, in the movement's own words.

At the beginning of March, we officially launched Arkotos' Interregnum podcast, hosted by Charles Lyons, Martin Locker, and John Bruce Leonard, a biweekly podcast of interviews and metapolitical discussions on literature and current events. Arkotos has also published its first audiobook, from Markus Willinger's *Generation Identity*. Several more audiobooks are presently in production, including *A Fair Hearing* and Daniel Friberg's *The Real Right Returns*.

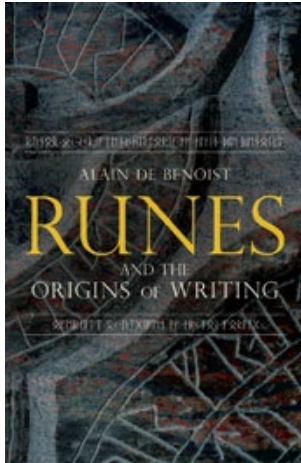

For the past eight years, Arkotos has focused on augmenting its rich collection of original works and translations. Thanks to the unflagging commitment of Arkotos' staff, writers, and readers, Arkotos has in that brief time become the world's premier publisher of both the French New Right and of the works of Alexander Dugin. Within the next four months, Arkotos will publish its tenth original translation of Julius Evola, thus securing its place as the premier Evola publisher as well. We are proud to represent these essential works for an ever-widening public.

In honour of the authors and the books that have brought Arkotos so far, we will be dedicating our energy in the coming time to publicizing our existing catalogue, ensuring that our published works reach the audience they deserve. We will be making full use of our staff, which we have expanded significantly during the past six months, to commit ourselves to more speaking engagements than ever before, and to increasing our presence at conferences and book fairs in Europe and America, as for instance at the coming American Renaissance Conference near Nashville, Tennessee on the 27–29 of April.

We invite you to check in regularly to the Arkotos homepage for new developments, and we look forward to joining you in your reading, listening, and event attendance in the coming months.

## FEATURED AUTHOR

# Ernst von Salomon

ERNST VON SALOMON (1902–1972) was a German writer and part of the Conservative Revolutionary intellectual movement of the German Weimar Republic.

As a member of the Freikorps, he participated in the murder of German Foreign Minister Walter Rathenau by providing a car for the assassins, a crime for which he was imprisoned between 1922 and 1927. Soon thereafter he was once again imprisoned, this time for participation in an attempted so-called feme murder, but he received a light sentence on account of having spared the life of the victim — a man named Wagner — when he pleaded for mercy.

Despite his revolutionary and Right-wing leanings, von Salomon kept his distance from the National Socialists and their rise to power in Germany. He lived out the days of the Third Reich and the war as a filmmaker. He and his Jewish wife were arrested by the Allied occupation government after the war, but were set free after a year. He continued writing screenplays for the remainder of his life.

Von Salomon's two most famous works are *The Outlaws*, published in 1930, and *Der Fragebogen* (The Questionnaire). The latter, published in 1951, is an ironic and defensive reply to the questionnaire which many Germans were obliged to fill out during the Allied occupation of Germany after the Second World War. Arktos has republished two of his novels, *It Cannot Be Stormed*, which depicts the ideological turmoil of Germany in the latter days of the Weimar Republic, as nationalists and Communists battled for power; and *The Outlaws*, which is based on his experiences in the German paramilitary Freikorps in the aftermath of the First World War.

Ernst von Salomon died in 1972.
